

## **03Z07 – 469 Protective Carpet Film**

### **1. Product Description**

A very high tack, masking tape for use in surface protection of carpets. Formulated for use in heavy traffic areas for protection of the carpet against under foot carried dirt, plaster/paint/mortar splashes.

The film eliminates 'trip hazards' that are normally associated with loose sheet based protection.

This product consists of a flame retardant, low density, blended Polyethylene backing, coated with a custom formulated water-based acrylic adhesive with a soft release.

### **2. Product Characteristics**

#### **2.1. Construction**

- Backing – Low linear/low density polyethylene blended
- Adhesive – Water based acrylic, soft release
- Total Thickness – 300 microns
- Colour – Clear

#### **2.2. Performance**

- Tensile Strength - MD 3800 PSI  
TD 3000 PSI
- Elongation % - MD 470  
TD 650
- Adhesion (oz. /in.) - 25 min.  
To PSTC stainless steel

The product is available in sizes of both 600 and 1200mm wide and in lengths of either 50m or 100m.
